

## **Curriculum Vitae for Griffith Feeney**

July 2009 (2 page version)

Email: feeney@gfeeney.com

Web: griffithfeeneyconsulting.com (gfcnow.com)

Telephone (914) 595-1916

Scarsdale, New York 10583 USA

### **Education**

Bachelor of Science in Mathematics, Antioch College, Yellow Springs, Ohio, 1968; Ph.D. in Demography, University of California at Berkeley, 1972.

### **Employment**

1972–1998, Research Associate/Senior Fellow, Program on Population, East-West Center, Honolulu; 1998–1999, Population Affairs Officer, UN Population Division, New York. 1999 to Present, Independent Consultant.

### **Selected Consulting Engagements**

- 2000 United Nations Population Division, New York, 6 months. Work on the production of the 2000 Revision of the Population Division's World Population Prospects (estimates and projections for every country in the world). Work involved producing estimates and projections for about 25 major Asian countries and developing methodological tools for this work.
- 2004 World Bank, Nairobi, Kenya, 20 days. Work with leadership of the Department of Civil Registration, Government of Kenya, to develop an implementation plan for inclusion in the World Bank STATCAP (Statistical Capacity Building) project.
- 2004 United Nations Population Fund (UNFPA) 6 weeks, June-July, New York. Ascertain UNFPA's program information needs: what information is needed, for what users, from what source, and for what purpose; and advise on how best to meet these needs, taking into account existing information materials.
- 2004 United Nations Assistance Mission in Afghanistan, 20 days, October-November, Kabul, Afghanistan. Analyze reliability of the information about population figures and estimates available with the relevant UN agencies and the Afghan authorities, including the Central Statistical Office; develop mechanisms for the publication of the population figures or estimates in time for the parliamentary elections; and meet with representatives of the relevant international and national institutions.
- 2005 General Statistical Office of Vietnam, 18 days, October-November, Hanoi (United Nations Population Fund). Review and analyze Population Change Survey data of 1 April 2005; produce estimates of fertility and mortality rates at the provincial level for 2001-2005; produce independent report assessing the fertility and mortality data based on the Population Change Survey of 1st April 2005.
- 2006 United Nations Population Division, 4 ½ months, February-June, New York. Develop methodologies for estimating and projecting population disaggregated by age, sex and rural-urban residence; analyzing demographic components of urban growth.
- 2008 Institute for Community and Public Health, Birzeit University, Ramallah, Palestine. One week, November, Ramallah. Intensive course in demographic methods for institute students and faculty.
- 2009 World Health Organization, Development of Field Methods for Age-Specific Population Estimates. Five weeks, February-May. Objective is to improve immunization-vaccination

monitoring statistics by improving estimates of denominator populations.

- 2009 World Bank, Lebanon Central Administration for Statistics, Census of Buildings, Dwellings and Enterprises, assessment and technical assistance for design, implementation and preliminary analysis. Four weeks, Beirut, March-April.
- 2009 United Nations Population Fund (UNFPA), Mongolia National Statistical Office. 10 days, Ulaanbaatar, June. Review key demographic indicators from 2008 National Reproductive Health Survey and conduct three day training in advanced methods for validation of demographic indicators from multiple data sources

### **University Appointments**

1994 ANU Demography Program; 2007 UC Berkeley Department of Demography; 2008-2009 University of Pennsylvania Department of Sociology.

### **Selected Technical Writing** (in addition to publications listed below)

- 1995 Final report on the *Population Changes and Fertility Survey: 1991*, Immigration and Population Department, Ministry of Immigration and Population, Yangon, Myanmar.
- 2000 *Long-range Population Projections: Based on the 1998 Revision*, ST/ESA/Ser.A/189, United Nations, New York.
- 2004 *Handbook on the Collection of Fertility and Mortality Data*, United Nations Statistics Division 2004 (Arabic, Chinese, Russian and Spanish available).

### **Selected Publications**

- 1973 Two models for multiregional population dynamics. *Environment and Planning* **5**:31-43.
- 1976 Estimating infant mortality rates from child survivorship data by age of mother. *Asian and Pacific Census Newsletter* **3**(2):12-16
- 1980 Estimating infant mortality rates from child survivorship data. *Population Studies* **34**(1):102-128.
- 1983 Population dynamics based on birth intervals and parity progression. *Population Studies* **37**(1):75-89.
- 1983 A microprocessor revolution in data collection? *Asian and Pacific Census Forum* **19**(1):1 and 13.
- 1985 "Children ever born and children surviving" and "Child survivorship estimation" entries in the *Dictionary of Demography*, ed. Chris Wilson. Oxford: Basil Blackwell.
- 1991 Child survivorship estimation: methods and data analysis. *Asian and Pacific Population Forum* **5**(2-3):51-55 and 76-87.
- 1994 Below replacement fertility in China? A close look at recent evidence. Griffith Feeney and Yuan Jianhua. *Population Studies* **48**:381-394.
- 1994 Fertility decline in East Asia. *Science* 266 (2 December): 1518-1523.
- 2001 The Impact of HIV/AIDS on Adult Mortality in Zimbabwe. Griffith Feeney. *Population and Development Review* **27**(4):771-780.
- 2003 "Data Assessment", "Lexis diagrams", and "Population Momentum". Entries in the *International Encyclopedia of Population*, Ed. Paul Demeny and Geoffrey McNicoll. New York: Macmillan and Company.
